FIRST EDITION

AF 9200 SUPPORTING DOCUMENT

Aerospace Federation
af.org

Document identity and use

Field	Declared position
Code	AF-FR-9200-012
Title	Supplier and interface acceptance
Family	Forms
Organization	Aerospace Federation
Edition	FIRST EDITION
Relationship	Supporting material for AF 9200 - Aerospace Safety & Operational Assurance
Status	Prepared for publisher review; approval and effective dates not assigned
Language	English master text

Use and precedence

The AF 9200 standard contains the proposed requirements. This supporting document supplies guidance, model controls or records within its stated purpose. Complete the local scope, parameters, roles and authority before operational use. A completed template does not establish conformity or permission.

Applicable legal and competent-authority obligations remain independently binding. No AF recognition, accreditation, statutory approval or operational authorization is created by this document. Codes in this set are proposed identifiers for the newly prepared supporting collection.

Record completion

Where fillable fields are provided, use a PDF reader that supports interactive forms. Blank fields remain unresolved. Attach controlled evidence by identifier where space is insufficient. Typed names are not certificate-based digital signatures. Preserve the completed record and its history under the local retention rules.

Implementation control	Allocation
Responsible function	Responsible record owner
Primary AF 9200 anchors	25; Annex O
Catalogue	AF-ML-9200-001; coverage: AF-CM-9200-001

1 Purpose and use

These forms support AF 9200 implementation. Each completed form is a local record, not an AF approval. Use unique record IDs and preserve linked evidence. State the exact object and configuration. Blank fields remain unresolved. Select PASS, FAIL, HOLD or approved N/A only with the required basis.

The PDF contains fillable text fields. Continue lengthy evidence in a controlled attachment and record its ID. Typed names are not certificate-based digital signatures. Use the organization's authorized signature or approval process where required.

2 Supplier and interface acceptance

AF 9200 references: 25; Annex O. Commercial acceptance is separate from technical safety acceptance.

Record ID / object / configuration / site / phase

Owner / reviewer / dates / current state

Supplied function, criticality, parties and retained duties

Requirements, assumptions, evidence and access

Compatibility, anomalies and change/occurrence obligations

Accepted configuration, limitations and surveillance

Approval identity, authority, date and linked attachments
