| Authority              | Publisher approval and effective date are not assigned. Local use requires authorized adoption and completed parameters. |

### Use with the main standard

This document implements the identified AF 9700 clauses and annexes. Read the complete applicable requirements in the main standard. The source anchors are navigation references; a template does not replace technical judgement, evidence, permission or eligible approval.

AF-ML-9700-001 lists the complete supporting set. AF-CM-9700-001 maps the main clauses and annexes to working documents. AF-TP-9700-001 establishes the common local parameter baseline; add the relevant discipline profiles.

### Record control

Identify the object, configuration, record owner and dates. Reference attachments by stable identifier and version. Keep superseded evidence and decisions traceable. Use the approved local retention, access and authentication arrangements. No technical limit, numerical limit, interval or acceptance value is assigned by a blank template.

Implementation model: Translate the stated responsibilities and controls into the actual organization. Informative examples remain explanatory; use approved programme-specific values for operational decisions.

# 1 Set identity and use

AF 9700 - Sustainable Aerospace & Lifecycle Management. FIRST EDITION manuscript prepared for publisher review. The main standard is supplied separately. This archive contains exactly 152 supporting PDFs in the 11 folders below; it does not contain the main standard.

The document code is the stable identifier. Each file is named CODE\_FIRST\_EDITION.pdf. PDF bookmarks provide navigation; record-bearing documents contain interactive text fields. Retain controlled working copies and authenticate approvals through the adopting organization.

| Folder / family       | PDFs | Contents and purpose                                                                                |
|-----------------------|------|-----------------------------------------------------------------------------------------------------|
| 01_Foundation         | 2    | Master document list and full clause coverage matrix                                                |
| 02_Policies           | 5    | Five policies with local adoption records                                                           |
| 03_Manuals            | 4    | Lifecycle assessment, environmental operations, circular treatment and space sustainability manuals |
| 04_Companions         | 3    | Implementation, interpretation and quantitative guidance                                            |
| 05_Procedures         | 30   | Thirty process procedures with explicit outputs and handoffs                                        |
| 06_Technical_Profiles | 18   | Common parameter baseline and seventeen activity profiles                                           |
| 07_Checklists         | 24   | Twenty-four criterion-level examination checklists                                                  |
| 08_Forms              | 30   | Thirty evidence and decision record forms                                                           |
| 09_Registers          | 15   | Fifteen linked-record registers                                                                     |
| 10_Schedules          | 7    | Seven controlled schedules with locally approved timing                                             |
| 11_Work_Instructions  | 14   | Fourteen practical operator instructions with task records                                          |

## 1.1 Separate main publication

AF\_9700\_Sustainable\_Aerospace\_Lifecycle\_Management\_FIRST\_EDITION.pdf. Main standard: 64 pages; Clauses 0-40; Annexes A-T. Main text and Annexes A-N contain proposed requirements. Annexes O-T are informative.

## 1.2 Support-set totals

Supporting PDFs: 152. Total supporting pages: 568. Interactive fields: 1791. These are blank models; no operational result or approval is pre-entered.

## Work Instructions

| Code / file    | Title / primary source anchors                                                       | Pages |
|----------------|--------------------------------------------------------------------------------------|-------|
| AF-WI-9700-001 | Record a Lifecycle Data Point; source: 7; Annex D [fillable]                         | 4     |
| AF-WI-9700-002 | Confirm Functional Equivalence; source: 6, 9; Annex D [fillable]                     | 4     |
| AF-WI-9700-003 | Reconcile a Process Balance; source: 7-8, 22; Annexes D, H [fillable]                | 4     |
| AF-WI-9700-004 | Verify an Emission Factor; source: 7, 10-11; Annexes D-E [fillable]                  | 4     |
| AF-WI-9700-005 | Reconcile an Environmental Attribute; source: 12-13, 21, 36; Annexes E, L [fillable] | 4     |
| AF-WI-9700-006 | Capture Water and Discharge Evidence; source: 16-17; Annex F [fillable]              | 4     |
| AF-WI-9700-007 | Check Supplier Material Provenance; source: 19, 21; Annex G [fillable]               | 4     |
| AF-WI-9700-008 | Record an Ecodesign Gate Decision; source: 20; Annex G [fillable]                    | 4     |
| AF-WI-9700-009 | Verify an Operational Improvement; source: 22-24, 35; Annexes H, L [fillable]        | 4     |
| AF-WI-9700-010 | Check Continuing Space Duties; source: 25-26; Annex I [fillable]                     | 4     |
| AF-WI-9700-011 | Record Repair and Receiving-Use Eligibility; source: 28-29; Annex J [fillable]       | 4     |
| AF-WI-9700-012 | Reconcile Retirement and Final Fate; source: 30-31; Annex J [fillable]               | 4     |
| AF-WI-9700-013 | Review a Sustainability Claim; source: 35-37; Annex L [fillable]                     | 4     |
| AF-WI-9700-014 | Close a Finding or Transfer a Duty; source: 38-40; Annexes M-N [fillable]            | 4     |

## Record and authority boundaries

Select documents from the declared activity and retained responsibilities. The list is not permission to omit a requirement because its template is unused. Populate the complete P01-P44 baseline and adopt local procedures before use. Add controlled continuation records where the required technical payload exceeds a field.

A completed form does not itself grant verification acceptance, risk acceptance, release or operating permission or AF recognition. The designated eligible authority must review actual evidence and record the exact decision and scope. Use AF-FR-9700-030 for local adoption and publication-state control.
